Receipt is acknowledged of the Amendment filed February 7, 2005

*Reasons for Allowance*

Claims 8-11 are allowable over the prior art of record.

The following is an examiner's statement of reasons for allowance: the best prior art of record, Tanaka, taken alone or in combination of other references, does not teach or fairly suggest an output buffer circuit comprising, among other things, a second control circuit, connected to the first drive circuit, for inverting the input signal to generate second and third control signals respectively supplied to the first and second output transistors, wherein the first control circuit generates the first control signal and a fourth control signal that have phases opposite to a phase of the input signal and are respectively supplied to the third and fourth output transistors (claim 8); a second control circuit, connected to the first drive circuit, for generating second and third control signals respectively supplied to the first and second output transistors, wherein the first control circuit generates the first control signal and a fourth control signal respectively supplied to the third and fourth output transistors (claim 9); and a second drive circuit connected to the output terminal, wherein the second drive circuit generates a second output signal, wherein the second drive circuit includes a plurality of sub-drive circuits having different impedances, wherein at least one of the sub-drive circuits is selectively enabled to set the output impedance of the second drive circuit (claim 10), as set forth in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
